MESSAGE FROM RECTOR

We are inviting you to our university to get one of the most interesting and human professions – the profession of doctor.

Our University has considerable experience in training of doctors for foreign countries and employs the best specialists.

Strong intellectual potential, close cooperation with leading medical institutions, the use of modern technologies, and individual approach to each student, all these ensure high quality of training and future professional achievements of our graduates. Training in our university is conducted in line with up-to-date standards applied in European countries. We are offering our students the training programmes best fit for their home country needs or places where they want to practice medicine in future.

We apply training techniques that make it possible for students to develop problem-solving skills, learn how to get information independently and improve abilities to assess new information critically. We are confident that wide access to clinical settings, work with patients, and participation in surgeries will help students develop good clinical skills and human approach.

We pay particular attention to personal growth of students applying individual approach to each of them and help them solve all their problems as to training or accommodation, privacy and security.

We welcome you too to our modernized University, Perm State Medical University!

Koryukina Irina Petrovna
Rector, Professor
Perm State Medical University

Specialists in the sphere of medicine have graduated from the University for many years. Graduates of the University work in state and private medical institutions, take leading positions in state administrative structures, solve primary issues on development of modern medicine.

As the Rector I am proud that our university grows and serves as a bridge for generations of students who want to become doctors.

MESSAGE FROM HEAD OF DEPARTMENT FOREIGN STUDIES

Dear Students,

Perm State Medical University offers the highest quality educational programs designed, to train the next generation of physicians, medical researchers and health-care professionals.

With dedicated and skilled faculty, excellent infrastructure, library facilities, museums, laboratories and skill labs, that provide hands-on experience to the students, the institution has been attracting numerous students from India as well as from many other countries of the world. The students who have graduated from this institution have been successfully practicing medicine in Malaysia, USA, UK, middle east and other European countries.

Our endeavor has always been to provide the best to the students and to prepare them to take up the challenges of tomorrow, so that when they come out of the institutions they are competent to handle the responsibilities of the medical profession.

Let us help you begin your medical career on the right path. If you are looking for a great medical education that offers unique programming and customized student learning, I hope that you will consider Perm State Medical University.

CHERKASOVA VERA G
Head of Department
Foreign Studies

Life in Perm State Medical University is not only about studies. Our students form their own societies and clubs that include sports clubs, cultural and language clubs, dance and music, photography and so on. A fully-equipped gymnasium are also available for all students to use

The bright future at Perm State Medical University continues to unfold through innovative primary care initiatives, state-of-the-art training in all the medical specialties, and cutting-edge basic and translational biomedical research, all made possible by our extraordinary faculty and students.

As you embark on this career path, I invite you to consider Perm State Medical University as an equally exciting and rewarding destination for your medical and scientific training.

Yroynich Yana Nikolaevna
Vice-Dean of International Students
Assistant Lecturer of
Histology Department

MESSAGE FROM VICE-DEAN

I am very proud of the medical education we offer and of our outstanding students who use these programs to develop and grow into the best doctors they can be.

Our graduates excel in their licensing exams and achieve great success in the match every year, and ultimately enjoy rewarding careers. In the meantime, our students are happy to be a part of Perm State Medical University, and are keen to engage and be engaged in their chosen field and in the communities they will serve.

Dr. Vikas Saxena
Vice-Dean of
International Students

Perm State Medical University Campus

The University

Established in 1916, Perm State Medical University is 100+ years old

Perm State Medical University is one of the oldest and biggest universities located in the Perm city of Russia.

At present there are around 569 employees in the university including highly qualified teachers and the candidates of medical sciences. The university is proud to have great scientists and honoured doctor working as faculty.

Perm State Medical University was founded in year 1916. In year 2016, University has completed 100 years of its existence. PSMU is a member of The Association of Medical Schools in Europe. Since 1992 the university has been listed in the State Register of Participants of Foreign Economic Relations; foreign students are trained by the programs of training bachelor degree, diploma and postgraduate education.

More than 160 foreign students from 21 countries around the World (India, Morocco, Sudan, Algeria, Pakistan, Zimbabwe, Afghanistan, Israel, Germany, Azerbaijan, Ukraine, Uzbekistan, Moldova) are currently studying at Perm State Medical University.

The principal mission of the University is to preserve, develop and disseminate its cherished values.

Perm State Medical University has been recognised by the Ministry of Higher Education to train medical professionals for foreign countries, having highly -professional teaching staff.

During the period of its existence, more than 50,000 doctors have graduated from PSMU.

Perm Medical Journal is published at PSMU. Since 2003 it is included into the list of journals, recommended for publication of the basic scientific results of thesis for a Doctor's degree . The journal is the oldest medical edition in Russia, which is being published from 1924.

Doctor of Ural is the oldest newspaper of Perm higher schools published in large editions. Its rst issue was published in November 1931. Its main subject is exchange of information, experience, achievements. The life of the University is closely connected on its pages with important events of Perm and Perm Krai, chievements and problems of public health.

Since 2005 the University is headed by Honoured Worker of Science of the Russian Federation, Doctor of Medical ciences, Professor I.P. Koryukina.

Perm State Medical University Classrooms

PROMOBOT TRAINING

At Perm State Medical University, students are trained in various ways of patient-doctor interaction. Through simulation-based learning, students are able to learn as close to reality as possible.

Perm State Medical University hosts around More than 1000 Indian students. Promobot benefits Indian students perusing MBBS by giving real-time patient-doctor exposure which is easier to communicate and get hands-on training on clinical subjects.

Administration of Perm State Medical University has decided to use Promobot for the training of Indian Students studying MBBS in their University. Indian Students of PSMU will not only give exams on Promobot but also will be trained in clinical subjects and will get hands-on exposure to the latest technology available for training in medical universities. PSMU is not only the best medical university of Russia but also the first preference for Indian students looking to study MBBS in Russia.

SCIENCE & RESEARCH

Scientific authority of the University in the country and region has been constantly growing. Scientists carry out research work in all elds of medicine. Eleven well-known in Russia and far abroad scientific schools have been formed at the university. Every 3rd-4th lecturer is Doctor of Medical Science. There are 6 prole institutes, 4 dissertation councils in 10 specialties formed on the basis of the University. scientific investigations of Perm physicians are widely inculcated into practical public health; they are reected in numerous scientific works. Every year the total number of utility patents exceeds 30. Our scientists take an active part in contests for Russian and international grants, participate in the work of scientific forums in Russia.

INTERNATIONAL ACTIVITY

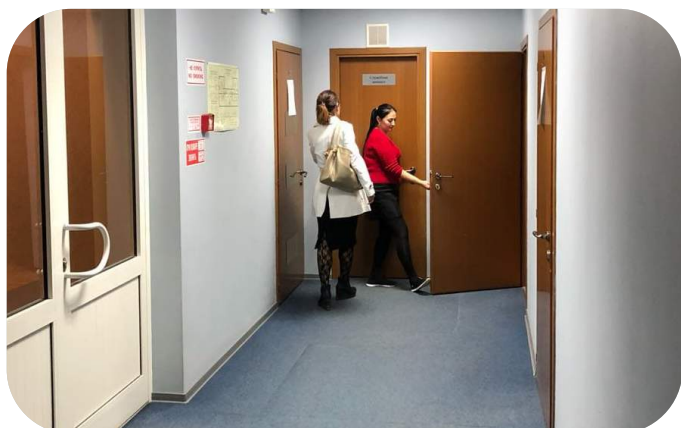

Perm State Medical University has signed 18 Agreements of Cooperation with the Universities of Germany, Italy, Israel, USA, France, Kazakhstan and several international organizations like International Federation of Medical Students' Associations (IFMSA).

In the frames of these agreements educational and research projects are realized. The University pays much attention to development of academic mobility of the staff, young researchers and students. Annually near 30 foreign professors present lectures at the University, they consult patients, demonstrate new technologies. They regularly train at foreign university hospitals during summer holidays and organize the similar study courses for foreign students.

TRAINING OF FOREIGN STUDENTS

Training of foreign students is an important index of the University efficiency, an instrument of long-term international collaboration. Dean's office for foreign students coordinates the work of PSMU in training of manpower for foreign countries - intake of students, execution of invitations, conclusion of contracts and their control, organization of training at preliminary courses, educational work and supervision at campuses, execution of graduation documents and their legalization in the Ministry of Foreign Affairs of Russian Federation, solution of organization, methodic problems, organization of living conditions. Foreign students make use of the University library and sports halls on a par with Russian students.

SEPARATE HOSTEL FOR BOYS AND GIRLS

Students reside on Perm State Medical University campus or in a hostel 15-minutes' walk way. Students can share their room with student of their choice from their home town also.

University has 7 student hostels which have attached kitchens, laundry rooms, and rooms for study for training sessions, recreation and, gym. All the rooms are provided with the access to the Internet (including Wi-Fi).

Perm State Medical University does its best to create comfortable conditions of life for the foreign students. Indian Mess is also available in the hostels of Perm State Medical University.

SPORTS ACTIVITIES

Every student gets the opportunity to take part in any sports activity. If student is not interested in outdoor activities, there is a sports hall in the grounds of the university. Students can play basketball, volleyball, and badminton, or enjoy aerobics, athletics, or martial arts training. All activities are led by professionals.

Sports Competitions take place year-round in the university.

ARNAB DEY

KOLKATA

BATCH:- 2017-2023

I am Arnab Dey, first year student at Perm State Medical University. Here, it has been a great time that we spent in Perm State Medical University. PSMU has a very wonderful faculty and they are very cooperative. The campus and its environment is very positive. PSMU has made the best efforts to provide all the facilities for the students like Faculties, events, sports, etc. The academic experience with a world class infrastructure and excellent faculty at PSMU has endured me with a lifelong career excellence. The exceptional programmes and teaching methodologies have given me the confidence to pursue my career ahead.

ISHITA SAHNI

NEW DELHI

BATCH:- 2017-2023

I am Ishita Sahni, first year student at Perm State Medical University. Thanks to Perm State Medical University and RUS Education for my transition not only as a student but as a whole person. In this competitive world, it is very hard to achieve our ambitions but RUS education provided me the perfect platform and enclosure to a whole new environment. I didn't quite know what to expect. Students from a range of interests, faculty across the university, administrative staff and students of faculty, it's exciting to be constantly challenged in the new inevitable field. I so much love my university, the professors are so generous, they motivate and actuate every student to set and reach short and long term goals.

SHRINGI SINGH

MUMBAI

BATCH:- 2017-2023

I am Shringi Singh from Mumbai Maharashtra . I am a first year student studying in Perm State Medical University . I really like living here , the city is very beautiful. The University provides us with great teaching facilities. I'm really grateful to Rus Education for giving us the opportunity to pursue our career here. The management and the faculties here are commendable. Our hostel and room facilities are also at its best. The mess provides us with Indian food which is a very important thing here in Russia. I therefore thank Rus Education for all the comfort and support.

PRAJAKTA SANAP

MUMBAI

BATCH:- 2017-2023

My name is Prajakta Sanap and I'm a first year student in Perm State Medical University. I arrived in PSMU in October 2017. It was a marvelous experience coming here. The city is beautiful, with amazing and very amicable people. The hostel provides excellent facilities. My room is quite big and very comfortable as well. The mess provides us with great food. The best thing about this city is the University, the teaching staff is amazing and very helpful. I'm extremely thankful and grateful to Rus Education and my coordinator Dr. Vikas for all the help they've provided me with. They have made everything much easier for me. I would highly recommend anyone who wishes to study Medicine to come here and join us.
