ABOUT RUSSIA

Russia is geographically located both in Europe and Asia. The country borders the Arctic Ocean to the north and 14 countries, Azerbaijan, Belarus, China, Estonia, Finland, Georgia, Kazakhstan, North Korea, Latvia, Lithuania, Mongolia, Norway, Poland, and Ukraine, in the rest. It also shares maritime borders with Japan, Sweden, Turkey, and the United States. It is the largest country in the world covering more than 11% of the Earth's landmass.

ABOUT PERM

Perm is the cultural capital of Russia with 13 museums, 4 state theatres, and more than 10 cinemas. During the winters the temperature ranges between -10°C to -16°C whereas during the summers, it ranges from 15°C to 26°C . Perm is also a center for education among the international students. The city has about 21 universities and more than 270 programs in various disciplines including medical, engineering, architecture, management and many other vocational courses. The living standards at the city are extremely high, with an affordable cost of living as compared to the rest of the country.

PERM STATE MEDICAL UNIVERSITY

Perm State Medical University is one of the oldest and biggest universities located in the Perm city of Russia.

Established in 1916, as a medical faculty of the Perm State University, which later became independent in 1917, the century-old university is one of the oldest universities in the region and still holds the top position. Perm State Medical University became a member of the European Association of Medical Schools in Europe in 1997.

The university has won the Moscow Mayor's prize for the best campus in the area. The university is also a proud winner of the title "Best student hostel" at the all-Russia contest held among all the Russian medical universities. At the university, the students have access to the 'culture palace' named 'Academia'. There is a great range of cultural events and performances based in the culture palace.

An everyday classroom of Perm State Medical University includes about 10 students mentored by a lecturer and two assistant lecturers. As of present, there are about 20,000 studying in the university out of which 8000 are from 21 countries like India, Israel, Germany, etc.

MESSAGE FROM RECTOR

Dear Students,

I have been heading the official representation of the Perm State Medical University for more than a decade. Every student that joins brings a set of new learning with them, helping in evolving ourselves in the process of 6 years.

I believe that every student has his/her own potential waiting to be discovered and it is our responsibility to mentor and guide them through this part of self-discovery. I try my best to regularly interact with all the students and know the problems they are facing in the university to help them to find the solution together. I want to tell all the students of the university that no matter what situation you are facing today or will face tomorrow, you will never be alone. We are here to help you guide you through the difficulties and help you to be a great human being serving the global community.

I wish to see all my students as renowned doctors adding to the prestige of the university to even further folds.

Ms. Natalia Vitalievna Minayeva
(Rector, Perm State Medical University)

Perm State Medical University has been leading the medical education of the region for many decades. I feel extremely delighted to see all these young minds gathering together to create a future of desire. The hopeful eyes inspire me every time with their courage and dedication. I wish all the students to live a prosperous, happy and healthy life of their dreams in their future.

MESSAGE FROM VICE-RECTOR

Dear Students,

Being associated with the Perm State Medical University for more than a decade, it has always been a privilege for me to see the thousands of dreams getting fulfilled every year and what inspires me most to do even more on my part to make that day come for the students.

I try with all my might to be involved with the students at a personal level to ensure that all the concerns of the students are addressed. Our entire team works meticulously hard to make the student's feel comfortable in the university at the same time creating an environment which will help them grow as a person and not just academically.

I hope that all the students who join us with a lot of expectations graduate with satisfaction and create beautiful memories during their stay at the university along with us!

Ms. Anna Mikhaylovna Bocharova
(Vice- Rector, Perm State Medical University)

Every year among the thousands of the students joining the Perm State Medical University, few join to reach their goal and a few to find their goal, but all of them are filled with the excitement to embark on a new journey adding to their life-long experience. We work hard to make stand true upon all the expectations of the students and help them in achieving their lifelong dream of being a doctor.

MESSAGE FROM HEAD OF DEPARTMENT FOREIGN STUDIES

Dear Students,

Perm State Medical University offers the highest quality educational programs designed, to train the next generation of physicians, medical researchers and health-care professionals.

With dedicated and skilled faculty, excellent infrastructure, library facilities, museums, laboratories and skill labs, that provide hands-on experience to the students, the institution has been attracting numerous students from India as well as from many other countries of the world. The students who have graduated from this institution have been successfully practicing medicine in Malaysia, USA, UK, middle east and other European countries.

On interaction with all these young minds filled with hope and dedication coming away from their homes in India, USA, UK, Canadian, Malaysia, Indonesia and other different parts of the global village, I feel a new surge of energy to even surpass my bests for their sake. The sole objective of the university is to provide the best to the students, preparing them to tackle the challenges of tomorrow so that they can emerge to be competent to handle the responsibilities and struggles in the daily life of the doctors.

Let us help you begin your medical career on the right path. If you are looking for a great medical education that offers unique programming and customized student learning, I hope that you will consider Perm State Medical University.

Ms. Efimova Tatyana Yurievna
Head of International Programs

Greeting the young minds every morning is my favourite thing to do. The enthusiasm they have inspires me everyday and every time. With unbounded dreams, these young students always motivate me to do my role in making those dreams come true. Today, when I look back to all my students who are living their dream life today with happiness and success, I feel immense pride in my heart. I hope each and every student joining Perm State Medical University has a successful and happy life not only in university but also after that.

MESSAGE FROM VICE-DEAN

I am pleased to welcome you to Perm State Medical University. The bright future at Perm State Medical University continues to unfold through innovative primary care initiatives, state-of-the-art training in all the medical specialties, and cutting-edge basic and translational biomedical research, all made possible by our extraordinary faculty and students.

As you embark on this career path, I invite you to consider Perm State Medical University as an equally exciting and rewarding destination for your medical and scientific training.

Ms. Troynich Yana Nikolaevna
Vice-Dean of International Students,
Asst. Lec., Histology Department

MESSAGE FROM VICE-DEAN

I am very proud of the medical education program we provide at PSMU and of our outstanding students who develop and grow into the best doctors they can be.

Our graduates excel in their licensing exams and achieve great success in the match every year, and ultimately enjoy rewarding careers. In the meantime, our students are happy to be a part of Perm State Medical University, and are keen to engage and be engaged in their chosen field and in the communities they will serve.

Dr. Vikas Saxena
Vice-Dean, PSMU

MEDICAL STUDY AT PSMU

The general medicine/ physician program offered at Perm State Medical University is about 6 years long. During this course of study, equal focus is maintained between the theoretical and practical aspects of the curriculum.

The assessment is objective and practical for checking the implementation of the acquired learning. The pragmatic approach of learning at the university classroom's feature in intrinsically motivating the students to work hard and perform better.

As an integral part of its medical curriculum, Communicative Russian is also taught from the first year of study itself, so that the students can effectively communicate with the patients during their clinical rotation. However, the medium of classroom interaction and examination is English.

TRAINING OF INTERNATIONAL STUDENTS

Training of foreign students is an important index of the University efficiency, an instrument of long-term international collaboration. Dean's office for foreign students coordinates the work of PSMU in training of manpower for foreign countries - intake of students, execution of invitations, conclusion of contracts and their control, organization of training at preliminary courses, educational work and supervision at campuses, execution of graduation documents and their legalization in the Ministry of Foreign Affairs of Russian Federation, solution of organization, methodic problems, organization of living conditions. Foreign students make use of the University library and sports halls on a par with Russian students.

VISIT TO THE UNIVERSITY

Mr. Subrato Das, Minister Education & Community Welfare, Embassy of India, Moscow visited the campus of Perm State Medical University, earlier in the year of 2022. He visited the laboratory of the university and witnessed the simulation learning mechanism used in them for the training of the students. The guests were impressed with the use of non-conventional strategies to assist learning among the students.

Air Marshal Dr Pawan Kapoor (Retd.) has also visited the university and interacted with the Indian students in person. In both the visits, Dr Kappor visited the various departments and laboratories associated with the university. The students expressed their gratitude and happiness.

SIGNING CEREMONY WITH RUS EDUCATION

In the presence of all of the esteemed guests, an agreement of cooperation between Perm State Medical University and Rus Education is signed. Through the signing of this Agreement, Indian students will be able to undergo practical training directly in a healthcare environment that meets the norms and standards of organizing work in the healthcare industry in India.

A special invitation was extended to Mr. Subrata Das, Minister of Education of the Embassy of the Republic of India in the Russian Federation, and Professor S.K. Washim, Chairman of Rus Education.

INDIAN INDEPENDENCE DAY CELEBRATIONS

The Indian students studying MBBS in Russia at Perm State Medical University celebrated the 75th Independence Day celebration with much anticipation & joy. The students were extremely excited to celebrate their national festival with their peers. The students have been practicing for weeks to perform their best, showcasing their pride as a citizen of India and at the same time showcasing their talents.

The students arranged and participated in several performances like dancing, singing, recitation and more. Throughout the celebrations, the students have been excited and enthusiastic about it. The celebration concluded with lots of appreciation, pride and laughter from the students and audiences.

CONVOCATION CEREMONY

Celebrating their journey of finally being a doctor, Perm State Medical University witnessed another batch of students accomplishing their dream. The event also attended by various university's representatives like Natalia Viitalievna Minayeva (Rector), Korikov Vladimir Vasilievich (Vice-Rector), Anna Mikhaylova Bocharova (Vice- Rector) Troynich Yana Nikolaevna (Vice-Dean), Vikas Saxena (Vice-Dean), Kozlova Tatyana Igorevna (Document Specialist), Efimova Tatyana Yurievna (Head of International Programs), amongst many others.

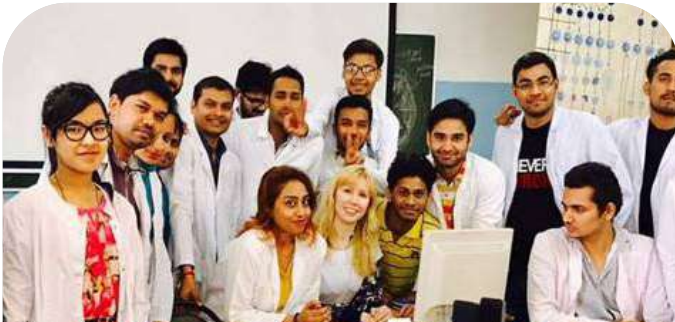

During the event, the students thanked the faculty for continuously helping them throughout all the thick and thins. The event also witnessed beautiful dances and the melodious singing by the students. The professors blessed the students with good wishes for their future endeavors.

STUDENTS ACCOMMODATIONS

The hostels at the Perm State Medical University are just 15 minutes walking distance from the main campus. The students have the freedom to choose their room-partners from their home-towns as well.

At present the university has 7 student hostel buildings with attached kitchens, laundry rooms, study rooms, gymnasium, recreational rooms, etc. All these rooms have wifi connection so the students are not troubled with the connectivity.

Separate Hostels For Boys and Girls:

Perm State Medical University does its best to create comfortable conditions for the living of International students. Therefore, the university provides separate student accommodation facilities for boys and girls.

ROBOTICS EDUCATION

PROMOBOT TRAINING

At Perm State Medical University, students are trained in various ways of patient-doctor interaction. Through simulation-based learning, students are able to learn as close to reality as possible.

Perm State Medical University hosts around More than 1000 Indian students. Promobot benefits Indian students pursuing MBBS by giving real-time patient-doctor exposure which is easier to communicate and get hands-on training on clinical subjects.

Administration of Perm State Medical University has decided to use Promobot for the training of Indian Students studying MBBS in their University. Indian Students of PSMU will not only give exams on Promobot but also will be trained in clinical subjects and will get hands-on exposure to the latest technology available for training in medical universities. PSMU is not only the best medical university of Russia but also the first preference for Indian students looking to study MBBS in Russia.

DISCOVERING THE CITY

Perm is a city for many interests. The university does not believe in keeping the students only in the boundations, therefore it organises several excursions and visit to the various popular sites like museums, parks, etc within the country as well as outside.

SHRINGI SINGH

MUMBAI

BATCH:- 2017-2023

I am Shringi Singh from Mumbai Maharashtra . I am a first year student studying in Perm State Medical University . I really like living here , the city is very beautiful. The University provides us with great teaching facilities. I'm really grateful to Rus Education for giving us the opportunity to pursue our career here. The management and the faculties here are commendable. Our hostel and room facilities are also at its best. The mess provides us with Indian food which is a very important thing here in Russia. I therefore thank Rus Education for all the comfort and support.

PRAJAKTA SANAP

MUMBAI

BATCH:- 2017-2023

My name is Prajakta Sanap and I'm a first year student in Perm State Medical University. I arrived in PSMU in October 2017. It was a marvelous experience coming here. The city is beautiful, with amazing and very amicable people. The hostel provides excellent facilities. My room is quite big and very comfortable as well. The mess provides us with great food. The best thing about this city is the University, the teaching staff is amazing and very helpful. I'm extremely thankful and grateful to Rus Education and my coordinator Dr. Vikas for all the help they've provided me with. They have made everything much easier for me. I would highly recommend anyone who wishes to study Medicine to come here and join us.

ARNAB DEY

KOLKATA

BATCH:- 2017-2023

I am Arnab Dey, first year student at Perm State Medical University. Here, it has been a great time that we spent in Perm State Medical University. PSMU has a very wonderful faculty and they are very cooperative. The campus and its environment is very positive. PSMU has made the best efforts to provide all the facilities for the students like Faculties, events, sports, etc. The academic experience with a world class infrastructure and excellent faculty at PSMU has endured me with a lifelong career excellence. The exceptional programmes and teaching methodologies have given me the confidence to pursue my career ahead.

ISHITA SAHNI

NEW DELHI

BATCH:- 2017-2023

I am Ishita Sahni, first year student at Perm State Medical University. Thanks to Perm State Medical University and RUS Education for my transition not only as a student but as a whole person. In this competitive world, it is very hard to achieve our ambitions but RUS education provided me the perfect platform and enclosure to a whole new environment. I didn't quite know what to expect. Students from a range of interests, faculty across the university, administrative staff and students of faculty, it's exciting to be constantly challenged in the new inevitable field. I so much love my university, the professors are so generous, they motivate and actuate every student to set and reach short and long term goals.
